

SENATOR V. JOHNSON: The committee amendment carries. What is the next amendment you have?

CLERK: Mr. President, that's...okay, the next amendment, that is all to AM1422. We now have the Appropriations Committee amendment 1414 which is the state operations, if I am not misspeaking here, Senator.

SENATOR V. JOHNSON: Has that been divided in any parts?

CLERK: Yes, sir, several at this point.

SENATOR V. JOHNSON: People are asking for the page number if you have it, Patrick.

CLERK: This one is not printed, Senator. This is 1414. I think the Fiscal staff has some copies. I might be wrong.

SENATOR V. JOHNSON: This is known as amendment #1414. It has been distributed. It should be on your desk. The Clerk indicates that there are several subparts of the amendment. I am going to ask the Clerk if he could now outline for us those parts of the amendment that are not to be considered on this first go-around.

CLERK: Mr. President, I am aware of three requests. The first is on page 11, Agency 78, Commission on Law Enforcement and Criminal Justice. That would be the first one. The second would be on page 11 as well, Agency 81, Energy Office, to delete general fund support for the Energy Office. That would be number two. And the third is on page, starting on page 4, line 26, it is Agency 26, Department of Social Services, down through line 12 on page 5. Those are the only three that I have at this point, Mr. President.

SENATOR V. JOHNSON: Thank you. Are there any others that are to come up? Any others. Senator Vickers, if you want to come up, do you have another change that you want to make? I will recognize you, Senator Vickers.

SENATOR VICKERS: Mr. President, I would just like to ask the Clerk, I have got an amendment up there to another section of this. I assume you will want to handle that separately as well.
